Project Name	Voice-Based Concept Understanding Analyzer
Maximum Marks	2 Marks

Customer Journey Map

The customer journey map illustrates how students interact with the Voice-Based Concept Understanding Analyzer from uploading their explanation to receiving AI-generated evaluation and performance feedback.

Phase of Journey	Stage 1 Upload Audio	Stage 2 AI Evaluation	Stage 3 Feedback & Improvement
Actions What does the customer do?	- Opens application - Selects topic - Uploads voice recording	- Waits for transcription - AI analyzes explanation - Score is generated	- Reads report - Reviews suggestions - Improves understanding
Touchpoint What part of the service do they interact with?	- Streamlit Interface - Upload Button - Topic Selection	- Whisper Model - Semantic Analysis - Scoring Engine	- Dashboard - PDF Report - Recommendations

Customer Thought What is the customer thinking?	· Is my recording clear? · Will AI understand me? · Hope it works correctly.	· Is my score accurate? · How well did I explain? · Am I missing concepts?	· I know my weak areas. · I can improve. · Practice again.
Customer Feeling What is the customer feeling?	· Curious · Slightly nervous · Excited	· Interested · Hopeful · Focused	· Confident · Motivated · Satisfied
Process Ownership Who is responsible?	Student	AI System	Student + AI
Opportunities How can we improve?	· Better upload UI · More audio formats · Faster validation	· Faster processing · Better semantic accuracy · More detailed scoring	· Personalized learning plan · Progress tracking · Performance analytics
